

# OPERATORS AND MINERS ARE ACCUSED

## GOVERNMENT CLAIMS THEY COOPERATED TO FORCE HIGH PRICES

Indictments Returned Cover Specifically The Last Three Years  
--Judge Anderson Sets Hearing For May 3--Many Illinois Companies And Individuals Involved

(By The Associated Press)  
INDIANAPOLIS, Ind., Feb. 25.—Co-operation between coal operators and miners in six states to force high prices for soft coal by restricting production was charged today by a federal grand jury indictment returned in court here. Two hundred and twenty six defendants, including 127 operators and miners and 99 operators' associations or companies were accused of conspiracy to violate the Sherman anti-trust law. The defendants live in Missouri, Illinois, Indiana, Kentucky, Ohio and Pennsylvania.

Judge A. B. Anderson who received the indictment set May 3 for arraignment and in issuing capias for arrest of the defendants, he fixed the bond of each at \$10,000. Names of all defendants, except twelve, were made public by District Attorney VanNoy.

Prominent operators including Thomas T. Brewster, Edward C. Searis, T. Jackson, Doring, Phil Penna and William K. Kavanaugh and high officials of the United Mine Workers union, including its president, John L. Lewis and Secretary William Green were among the defendants. The National Coal Association was among the corporate defendants.

Covers Last Three Years.  
The indictment covers specifically the last three years in the coal industry and follows an investigation that has been conducted almost continuously the last eighteen months by agents of the federal department of justice. The charge is made by the indictment that at various joint conferences the miners and operators agreed to be partners in mining and distributing coal and that they would aid one another in plans to increase wages, increase prices and create a shortage and otherwise limit production and distribution. Creation of fictitious market prices and the provocation of miners' strikes by operators also was charged.

Most of the persons indicted as individuals in the new bill were among those named as defendants in the indictment returned some time ago charging violation of the Lever food and fuel control act. Trial of that case has been postponed indefinitely, and it was said unofficially that it might be dropped in view of the new charges.

During the three year period covered in the indictment, a detailed history is given of methods by which it is charged the operators and miners worked together to restrict the production and distribution of bituminous coal. The charge is made that the agreements entered into between the operators and miners provided that coal should not be sold at any time for a price that did not yield a profit to the operator that increases of wages to miners should be added to the price of coal; that competition among operators should be eliminated; that no coal should be sold below the cost of production and that the means of increasing cost and production in the price of coal should be by closing and keeping idle the mines.

The operators established a uniform cost accounting system for the operation of the mines it is charged and by agreement employed a greater number of miners than was reasonably necessary.

Illinois Companies Named.  
The indictment names the following Illinois operators, mining companies and operators' organizations: Harry C. Adams, the Peoples Coal company, George B. Harrington, the Chicago, Williamson and Franklin Coal company; Fred C. Harold, the Chicago and Big Muddy Coal and Coke company; Rice Miller, the Hillsboro Coal company; Charles M. Maderwell, the O'Garra Coal company; Francis S. Peabody, the Peabody Coal company; Herman C. Perry, the Indiana and Illinois Coal corporation; Edward C. Searis, the Duncan Coal company, the Equitable Coal and Coke company, the Searis Coal

## IMMORALITY IS ATTRIBUTED TO WAR AND AUTOS

## HIGH SCHOOL GIRLS SOCIAL BUTTERFLIES

(By The Associated Press)  
ATLANTIC CITY, N. J., Feb. 25.—The war and automobiles are responsible for the "appalling immorality" among high school students, Miss Lillian E. Dimmitt, dean of women at Morningside College, Sioux City, Iowa, declared today in an address before the national council of deans of women. As a corrective measure she suggested that colleges adhere closely to the old standard of chaperonage for students entrusted to their care.

"The war has played havoc with our ethical standards," said Miss Dimmitt, "and after four years of killing it is only natural. It is responsible for a part of the riotous license found among students in the junior high schools. The number of cases of immorality is appalling."

Are Social Butterflies.  
"Extreme social life has found its way into the schools and colleges. High school girls are the social butterflies and get their ideals from the sensational movies. While a careful system of chaperonage would not guarantee right living or pure morals, it would be protective and react on the students and help save the home from the bitter criticism of today."

Miss Dimmitt's home is at 831 West College avenue, this city. She is a daughter of the late Rev. J. P. Dimmitt and for the past ten years has held the important post of dean of women at Morningside College.

## SENATOR DUNLAP EXPLAINS POLICE BILL

(By The Associated Press)  
CHICAGO, Feb. 25.—State Senator Henry A. Dunlap, author of a bill for the organization of a state constabulary today discussed the merits of the bill at a meeting of the Illinois Federation of Women's clubs.

With a state constabulary, he said, automobile thieves and pay-rol handouts could be pursued more successfully outside the large cities. A state constabulary would be especially beneficial to rural districts, he said.

Victor A. Olander, secretary of the Illinois State Federation of Labor, spoke against the organization of a state constabulary declaring that such a force would create a situation like that in Ireland today.

Earlier in the day the watchman of a Bowery theater located a short distance from a police station was found slain in the dressing room after evidences of having engaged in a pistol battle.

## BOY STEALS NEARLY MILLION IN BONDS. PAGE JUDGE LANDIS

Was Drawing Salary of Sixty Five Dollars Per Month

BELIEVED TO BE  
HIDING IN CHICAGO

(By The Associated Press)  
CHICAGO, Feb. 25.—The police of the nation tonight were on the lookout for William Dalton, 17-year-old \$65 a month bank clerk, whose alleged theft of \$772,000 worth of Liberty Bonds yesterday from the Northern Trust company was made known by bank officials today.

Altogether convinced that Dalton was hiding somewhere in the city, the police department telegraphed a description of the boy all over the country with the information that \$1,000 would be paid for his arrest and \$25,000 for recovery of the bonds.

Dalton is believed to have secreted the bonds—all in large denominations—about his person when he went out to lunch yesterday. He had been sorting them in a cage and has not been seen since the noon hour.

Second Theft In District.  
The theft was the second in this district recent in which a youthful bank clerk figured, the other being at Ottawa, Ill., when a 19-year-old clerk named Carey, who received \$90 a month attempted to steal nearly \$200,000 but was caught and the money recovered.

This case started an attack by Senator Dial of South Carolina on Judge Keenan M. Landis, the statement of the judge made on the bench that bank officials were partly responsible for the theft because they underpaid clerks who were in responsible positions.

Dalton was known in his neighborhood as a quiet, home loving, church-going boy, whose chief ambition was to become successful in business so that he could provide comforts for his aged, widowed mother who was partly dependent upon him.

A Mrs. Dalton tonight refused to discuss the case, but neighbors said that Willie Dalton, as they knew him, was in every way a model youth. He seldom went out at night and his chief recreation was swimming, boxing and playing billiards at the Y. M. C. A., they said.

In Line for Promotion.  
At the bank Dalton was looked on as one of the brightest boys in the institution and was in line for rapid promotion. He was promoted a few months ago with an increase in salary but even with this promotion it was largely accidental that he had an opportunity to steal the bonds.

Ordinarily, bank officials said, Dalton would not have anything to do with the bonds. They were temporary ones, however, and it was planned to exchange them for permanent bonds yesterday. Dalton was given the task of sorting the securities. While his companions were not looking, it is believed he hid the bonds on his person and it was not until he failed to return from lunch that they were missed.

The bonds had no coupons. They were of the 4 1/2 per cent fourth issue. Four were \$10,000 each, nine for \$5,000 each, and the balance were in denominations of \$1,000, \$500, \$100 and \$50. Most of the loss is covered by insurance.

Dalton has two sisters, both older than him and a younger brother.

## HARDING THROWS INFLUENCE BACK OF NAVAL PROGRAM

Stands With Senate Against the House For Big Program

NO REFERENCE  
TO DISARMAMENT

(By The Associated Press)  
WASHINGTON, Feb. 25.—(By The Associated Press).—The influence of President-elect Harding today was thrown behind the big navy program of the senate naval affairs committee and against the stand of the house for decreased appropriations for the naval establishment. The views of the president-elect were set forth in a letter received by a prominent senate Republican and quickly reached the party rank and file in both senate and house. Party leaders promptly predicted that Mr. Harding's letter would have potent influence in the forthcoming contest in the senate over the naval appropriations which were increased \$160,000,000 by the senate naval committee and indifference with the house in case the appropriation bill passes the senate with its augmented total.

Wants Program Carried Out.  
The president-elect in his letter, it was said, authoritatively, expressed himself as desiring a continuation of the present naval building program without substantial reduction.

No reference was made by Mr. Harding in his letter, it was stated, to the disarmament proposal of Senator Borah, Republican, of Idaho. Republican and Democratic leaders, however, joined in private predictions that the Borah resolution, requesting the president to call a naval disarmament conference, would be adopted by the senate.

The appropriation bill was presented formally during the day in the senate. As reported it carried \$196,000,000 against \$285,000,000 voted by the house.

## WILL NOT PRESS INDICTMENTS IN NEWBERRY CASE

Feel That Issues Were Presented Fully in First Trial

## ARGUMENTS RECENTLY MADE ON APPEAL

(By The Associated Press)  
DETROIT, Mich., Feb. 25.—The department of justice has decided not to press the second indictment returned against Senator Truman H. Newberry and 17 others, continued early last year of conspiracy to violate the federal corrupt practices act, according to word received here from Attorney General Palmer.

The second indictment charged Senator Newberry and members of his senatorial campaign committee with "conspiracy to commit the offense of perjury," in connection with reports made to the senate. In a letter to Henry W. Rose of Detroit who inquired as to the disposition of the second indictment, Mr. Palmer wrote:

"It was felt that the issues presented were fully tried out in the first indictment and that it was not necessary to resort to any further prosecution in the premises." Arguments were recently made in the United States supreme court on an appeal by the respondents from their conviction on the first indictment.

## LABOR WILL TRY TO BLOCK FINAL PASSAGE OF BILL

Want Dillingham Immigration Bill Defeated

ALSO ASK STRIKE INVESTIGATION

(By The Associated Press)  
WASHINGTON, Feb. 25.—Organized Labor will endeavor to prevent the final passage of the pending Dillingham bill restricting immigration to three per cent of number of aliens of each nationality in the country in 1910 as the first move under the new legislative program adopted her by representatives of the national and international unions affiliated in the American Federation of Labor.

Substitution of the Johnson bill, virtually prohibiting immigration for one year for the Dillingham proposal, will be sought, it is said. The latter was passed by the senate and an agreement on it by senate and house conferees is now pending in the house.

Want Strike Investigated.  
Legislative representatives of organized labor also have been instructed to press their efforts to obtain a congressional investigation into conditions in the strike area in West Virginia.

Whether labor will attempt to bring about introduction of a bill at the extra session of congress for the repeal of the Sherman anti-trust act will depend, according to information today, upon what action is taken to exempt labor organizations from liability under the law.

Counsel for the United Mine Workers and other international organizations were said to have begun preparation of final details of a bill to be introduced in the extra session that would legalize union organization work in all lines of industry, despite individual agreements between employers and employees not to join unions.

The council made no announcement as to its work except that it had considered several jurisdictional disputes.

An effort is indicated will be made to persuade the Republicans to consent to a bi-partisan arrangement, whereby the three present circuit judges may be re-elected without contest. There is some opposition to this plan, however.

Present circuit judges are E. S. Smith of Springfield, a Republican, and Norman L. Jones, Carrollton, and Frank W. Burton of Carlinville, both Democrats.

## CICOTTE'S ATTORNEY HAS NOTHING TO SAY

CHICAGO, Feb. 25.—Daniel P. Cassidy, attorney for Edward Cicotte, today conferred with state officials and attorneys for other Chicago American League players who will go on trial March 14 charged with conspiracy in connection with the alleged throwing of the 1919 world's series. Mr. Cassidy refused to say what attitude Cicotte would take in the trial.

"If I told you either that he would or would not repudiate his grand jury confession, it might prove misleading," he added.

He returned to Detroit tonight.

## PITTSBURGH BANKS FORBIDDEN TO GIVE OUT DATA ASKED FOR

Comptroller of Currency Says That Clearing House Association Issued Order—Wants to Know Salaries Paid to Various Officials—Banks Claim Has No Authority in Matter

(By The Associated Press)  
WASHINGTON, Feb. 25.—The Pittsburgh Clearing House Association was accused by Comptroller Williams of the currency today of having forbidden its member banks to furnish data asked for in the national bank call issued yesterday by the comptroller.

Several items not heretofore given on the face of the reports were requested in the current call, the comptroller explained.

These items he explained included a statement as to the amount of money which was being loaned on bond and stock collateral in New York City, a statement showing the aggregate amount of salaries paid to the executive officers of banks and the number of such officers and the amount of salaries paid all other employees of the bank and the number of such employees.

The obvious purpose of inclusion of the classes apparently found objectionable in Pittsburgh, Mr. Williams said, "was to develop whether money of depositors in national banks is being diverted from its proper function of supplying legitimate business and enterprise to earn fancy rates from the need or recklessness of speculators at a distance and whether disproportionate or improper amounts of the earnings of banks are being expended in salaries to officials. It is difficult to understand why bankers who have used such money discreetly and with regard to the rights of their customers and shareholders, should object to making this information public."

Is Reason for Damage to Hotel Occupied in Paris

SHOULD HAVE PATENT LEATHER PUMPS

(By The Associated Press)  
NEW YORK, Feb. 26.—Hob-nailed shoes of two hundred doughboys guards posted at the Hotel Grillon where the American Peace commission had its headquarters in Paris caused virtually all of the damage for which the owners charged the commission \$125,876.32 the manager of the hotel, Henri Dequisi said here today.

It was this item of damages which among other expenses President Wilson was asked to itemize in a resolution adopted recently by the house.

The 200 American soldiers who guarded the commission in Paris damaged the Hotel Grillon to the extent of about \$625 each," said M. Dequisi quickly adding that it was not the fault of themselves, but the shoes they wore.

"They were neither impolite nor boisterous but they had to tramp in and out and all about the hotel at the time wearing hob-nailed shoes over the polished floors and expensive rugs. It cost the hotel 650,000 francs to replace the carpets and 25,000,000 francs to put the hotel in order, he declared. M. Dequisi thought the boots of the French soldiers would have had the same effect and he said he understood the British did even more damages to the hotel Majestic.

"Is it very sad," he sighed, "but C'est La Guerre."

Armour & Co. sold their Chicago stock yard holdings to an eastern firm. It does not yet appear just what benefit the public is to receive by having the big Chicago packers divest themselves of stockyard ownership.

Mayor Beardsley of Muskegon, Mich., has donated his annual salary of \$500 for the purchase of potatoes to be distributed among the poor of his home city. Mr. Beardsley must have heard

of the "Jacksonville idea" in municipal government.

Somehow the statement of Mr. Hoover that the department of commerce needs a rearrangement but no new laws, has a good sound. The cry for new legislation is so common that it is a relief to hear of a prospective official who believes that the laws in effect are sufficient if applied.

Friendship among nations is desirable and the U. S. cannot again occupy just the position of "aloofness" that was in effect before the war. However, there is a difference between taking a share in responsibility for European affairs, and in taking all that responsibility. If the U. S. had accepted all the mandate burdens that Europe suggested, the whole job of keeping world peace would have been on Uncle Sam's shoulders.

It remains to be seen just how much the government will accomplish in its wholesale suits against the coal operators and mining officials. There is no doubt about prices having been outrageously high during the past months, but the success the government has had in the past in securing convictions under the anti-trust laws will not make the public wild with anticipation over any punishment likely to be meted out to those who are now charged with crime.

Two Wash. trains are to be discontinued Sunday in accordance with a new card, because the officials say those trains do not pay and that expense curtailment is necessary. It's a well known railroad fact that certain train services to which the public is entitled are always maintained at a loss. The question of profit and loss in railroad operation should not be figured on individual train schedules but on business as a whole. The public has a right to expect satisfactory service from a common carrier.

The disappearance of a youthful employee of a Chicago Trust Co. with about a million dollars' worth of Liberty bonds will furnish new material for the critics of Judge Landis. The recent arraignment by the judge of a banking institution at Ottawa for the payment of a low salary to a teller who attempted robbery of the bank, called forth the ire of a southern senator who declared that the Landis statement was incendiary and an invitation to persons in position of trust to appropriate money if they felt themselves insufficiently paid. Now the critics will say that statement of Judge Landis in the Ottawa case is acting as a suggestion to bank employees, and that the new defalcation case is in point.

**A CASE FOR DISCUSSION**

Certainly the difference that exists between the implement manufacturers and the farmers is one which calls for open-minded discussion rather than criticism. The interests of the manufacturers and the farmers are one and only by reaching some common ground of understanding can the interests of both be conserved. Prices of implements are high, no doubt because operation costs have been high. Yet it is not surprising that the farmer who has seen a radical slump in the values of the products he owns, is slow to understand about the high prices maintained for the equipment he must use in farming operations.

A conference between the head of the farm bureau federation and representatives of the manufacturers was held recently for mutual explanations. Through such conferences it is not too much to hope that the present difficulties can be ironed out. That the manufacturers have their troubles is proven by the financial condition of one of the largest implement concerns in Illinois. It is badly crippled and an effort is now being made to have bankers agree to a new finance plan.

## FORMER RESIDENT IS LEAVENWORTH PASTOR

Rev. W. R. Dodd Has Begun Pastorate in Kansas After Successful Work in Enid, Okla.

Older residents will remember Mr. and Mrs. George J. Dodd and will be interested in knowing that their son, Rev. W. R. Dodd, is now the pastor of the Presbyterian church in Leavenworth, Kans., having recently completed a term of seven years as pastor of the Enid, Okla. Presbyterian church. Prof. William Dodd and his son, George J. Dodd were residents of Jacksonville from 1863 to 1884. The son married Miss Mildred Nutting, daughter of Rev. Rufus Nutting, D. D., for some years professor at Illinois College.

The Enid Eagle of recent date gives some facts about Rev. W. R. Dodd's work in the ministry: "Rev. W. R. Dodd, pastor of the First Presbyterian church in this city since 1912, yesterday tendered his resignation to his congregation. During his pastorate the membership of the church has grown from 400 to 700 and various improvements have been made in the church building. The interest of Mr. Dodd has been wider than his denomination. For three years past he has by special invitation taught the Enid Bible study class, an organization composed of members from the different churches of the city that grow out of the Lowery evangelistic services.

"While in Enid Mr. Dodd has been given unusual recognition by his church at large. Moderator J. Withur Chapman of the general assembly appointed him a member of the national service commission of the Presbyterian church. He was sent to Washington during the war as the Oklahoma representative on that commission, and was in the conference held with President Wilson at the White House. He was a commissioner to the general assembly at Dallas and was also in the assemblies at Columbus and Philadelphia on special work. Last May he spent a week at Atlantic City as a member of the Home Mission council of the general assembly.

"As a preacher Mr. Dodd is well equipped. He is a graduate of Westminster college and Princeton seminary. His deep knowledge of the Bible and clear presentation combined with a good voice and pleasing delivery have always secured him a large hearing. His wife has been a force in the church that will be missed also. The older children, Ruth and Paul, now in Parkville college, have been leaders with the young people of the church."

**ECONOMICS OF PUBLIC HEALTH ADMINISTRATION**

Dr. H. B. Hemenway of the Illinois State Board of Health, is scheduled to speak at the Community Forum in the Congregational church on Sunday evening. One of the most difficult tasks which lie before the administration of the state is that of keeping the people fit physically. The bill for neglect of public health is a most alarming amount. Dr. Hemenway has had large experience and comes to the local Forum well commended as competent authority to present the problem. The community Forum this season has been touching the most vital problems of our time and this address will commend itself to our citizenship. The meeting opens at 7:30.

## THE MARKET SITUATION

Editor of the Journal:

Your editorial of Feb. 25 upon the national policy of keeping aloof from European affairs strikes a sound note. Many have been proclaiming that we want the European markets for our goods, but we do not want to be "entangled" in European politics. How can we get the markets without helping to straighten out European finances? And how can we help straighten out European finances without taking a hand in European politics?

We are glad to be "entangled" in the profits of European markets but we want to run no risks in helping those markets out of their demoralized conditions. Is this good statesmanship? Many of us have been saying for over a year that our selfish policy toward European chaos must bring retribution upon us. The American farmers now feel some of that retribution. The law is inexorable "He that saveth his life shall lose it." Our narrow, selfish attitude toward European politics has been called "100 per cent Americanism."

Some are beginning to suspect that it means a 50 per cent or 75 per cent loss in the value of most of our products. You are right when you say "Friendship for nations is not a bad thing." But friendship, if genuine, involves financial risks and moral responsibility. One can't be a friend and escape these. Away with the man whose friendship depends upon the profits and dividends he is to get out of it!

Yours truly,

Thomas W. Smith.

## JACKSONVILLE WINS FROM NORMAL HIGH

Defeat Visitors in Fast Game by Score of 39 to 10—Woods, Goebel and Mawson Star on Offense—Reserves Lost to White Hall 37 to 9.

Jacksonville high playing a stellar brand of basketball defeated Normal high before a large crowd of spectators in David Prince gymnasium Friday night by a score of 39 to 10.

The work of the home team on the offense was brilliant. Goebel, Woods and Mawson repeatedly made shots that brought the spectators to their feet. While the entire team played a fine defensive game, the work of Gard was the outstanding feature.

Time and again he snaggled well intended passes right under the basket and started the ball down the floor for an ultimate score. Gard also hurried the Normal shooters so much that they seldom got settled for a shot.

Normal was a disappointment to the spectators who had expected to see a much better team. They were simply outclassed. While they displayed some good passing and floor work their shooting was not accurate and White, forward, and captain of the team was the only one who seemed to have any class.

This player, while the smallest man on the team, gave Jacksonville more trouble than all others combined. He was fast and had been at all accurate the score might have been much closer.

**Reserves Lose Game**  
While the first team was winning here the reserves taken to White Hall by Coach Mitchell were getting trounced to the tune of 37 to 9.

Coach Mitchell told the Journal over telephone last night that the White Hall players were going fine and could have defeated almost any team. The locals put up a good fight but could not stop the offense of the White Hall team. The scores:

**MR. NICHOLS LIKES ARIZONA CLIMATE**  
S. W. Nichols, who is still at Tucson, Ariz., has written the Journal that he is still enjoying the climate of the southwest and feels that he is slowly but surely regaining his strength. Mr. Nichols believes he is fortunate in not having gone to Florida as he had once planned. He writes: "I tell you, it was a kind providence that guided me here instead of to Florida, for I am told by several that the winter down there has been especially cold and damp. Here the atmosphere is decidedly clear and dry."

"I see they are having all sorts of storms and troubles in the east, and here in the balmy sunshine it is hard to realize that such conditions exist. The nights are cool—yes, cold—and we have some fire, but with such a climate a person can sleep at the rate of 40 knots an hour."

## O. E. TANDY DIES IN NORTH CAROLINA

Well Known Resident Expires Suddenly in Hotel in Raleigh—News Received Here by His Family Physician Dr. Rowe—Funeral at Franklin.

Word was received in the city Friday morning of the death of Orien E. Tandy which occurred suddenly some time Thursday evening in a hotel in Raleigh, North Carolina.

The message containing the sad news was received by Dr. Edward Rowe for many years Mr. Tandy's physician who conveyed it to Mrs. Tandy at her home in the Cherry apartments.

Mrs. Tandy had received a letter just a few days ago saying he was not feeling well, but did not think it was anything serious. So news of his death completely prostrated her and was as well a great shock to his countless friends in this city and county.

Orien E. Tandy was the son of Dr. W. M. and Jane E. Tandy and was born in Franklin, June 23, 1865. He grew to manhood in Franklin and practically all his life was spent in Morgan county.

He was united in marriage in Franklin January 17, 1892, to Miss Myrtle Wright of that place who survives together with one son, George W. Tandy, of Chapel Hill, N. C., and one grand daughter, Elizabeth Boyd Tandy.

He also leaves one sister, Mrs. J. W. T. Stewart, of Franklin, two half sisters, Mrs. James Crim of Hannibal, Mo.; Mrs. George Hanrey of Franklin, and one half brother, Edward Tandy of Jacksonville.

**Took Up Teaching.**  
He attended the Franklin schools and later graduated from Illinois Normal. He then took up the profession of teaching and for many years he taught in various schools throughout the county. He gained a fine reputation as an instructor and in 1900 took a position with the Rand-McNally Publishing company of Chicago.

When Mr. Tandy had been with this firm a few years it was evident that he had entered the work for which he was eminently fitted. Few men in the entire country had the grasp of educational affairs that was his. He had the ability to so explain the merits of a school book that not only it was clear, but also proved most interesting as well.

He was soon assigned to southern territory and in his work had visited practically every southern state. He advanced rapidly until he was one of the leading agents of the company and became recognized as an authority on school books.

Early in life Mr. Tandy united with the Christian church in Franklin and always took an active part in church work. He also took an active interest in fraternal orders and so became a member of the Masons, Odd Fellows and Jacksonville Lodge No. 682 Elks. In all of these orders he became familiar with the ritualistic work and teachings.

For a number of years he served as an instructor in the Odd Fellows. He was widely known as an orator of great ability and during his travels he made many fraternal addresses in various parts of the country for which he received the highest commendation.

**Interested in Boys.**  
The most outstanding characteristic in the life of O. E. Tandy was his interest in young men and boys. Perhaps it was because of his work as a teacher coupled with an additional fact that his only child, a son, was devoted to athletics.

But he was an ardent supporter of all sports and especially football, basketball and baseball. He never missed a contest unless it was absolutely unavoidable. He took especial interest in the local high school where his son graduated and many boys who attended Jacksonville high school can testify to his generosity and his interest in their welfare.

He was a familiar figure at every baseball, football or basketball game played here in the last decade and was always rooting for the home team. During the four years his son was at the University of North Carolina he took great pride in his achievements and was always present during those years at his big annual game of the university with the University of Virginia.

Politically Mr. Tandy was affiliated with the Democratic party and was always prominent in its councils. He was regarded as one of the party's strongest speakers and was called upon frequently to make addresses and was always found ready and willing to go.

Few men had greater acquaintance than Mr. Tandy. He was of kindly impulses and ever ready to extend aid in time of need. He filled a large place in the life of the city and county and the influence of his life will be felt thru the years to come.

Mrs. Tandy received word Friday that her son and his wife had started from Raleigh with the remains of Mr. Tandy and will arrive here probably Sunday. No definite funeral arrangements have been made. However, the services will be held in Franklin in accordance with the oft-expressed wish of the deceased.

**A. M. MASTERS ON "HELD UP" HUMMER**  
Arthur M. Masters was a passenger on the Chicago & Alton Hummer, which was held up near Louisiana, Friday morning. Mr. Masters was in the smoker when the train came to a stop. Like other passengers he supposed that the trainmen had stopped because of some trouble with equipment, and it was not until a half hour later that they knew that holdup men had been at work. There was no excitement among the passengers, for the robbery was executed in a very quiet way without the discharge of a single shot.

## ROTARY CLUB GAVE ANNIVERSARY PROGRAM

Organization Has Grown Rapidly In Sixteen Years—Founded on Ideals of Service.

As Friday was the 16th anniversary of Rotary club the program here had been arranged in recognition of that fact. The local club is just about three years old. As a part of the anniversary observance a special effort was made to secure a 100 per cent attendance of the membership Friday. It was nearly a successful attempt, as only two members were absent, H. A. Perrin who is on the way to Atlantic City to attend a national convention of educators, and Edward A. Brennan, who was out of the city on business.

President Pontius introduced the one guest of the day, Dr. Caruthers, associated with the Presbyterian board of education. The president also extended special greetings to Frank J. Waddell, first Rotary president in Jacksonville, who has just returned from a California visit.

The speakers of the day were, Harry M. Capps, who briefly reviewed the history of the Rotary club movement; Dr. C. H. Rammelkamp, who had for his theme "The Rotarian's Obligation to the Community," and Earl M. Spink who discussed "The Responsibilities of Membership."

Mr. Capps said that Feb. 23, 1905, was the birthday of Rotary as the first meeting was held on that date in the office of Paul Harris an attorney in Chicago. For three years the one club continued to meet and the second club was organized in San Francisco in November, 1908. Then in two years' time came the clubs at Oakland, Seattle, Los Angeles, New York City, Boston, Tacoma, Minneapolis, St. Paul, St. Louis, New Orleans, Kansas City, Lincoln, Portland and Detroit.

The first annual convention was in the summer of 1910 in Chicago. Then came a period of rapid growth until today there are 800 Rotary clubs with a membership of 65,000.

Mr. Capps then presented briefly further facts to show the rapid spread of the Rotary organization and the wider understanding of Rotary ideals. This ideal of service is embodied in the Rotary slogan: "He profits most who serves best," and it is upon this foundation that Rotary has been built and has expanded in a truly wonderful way in sixteen years.

Mr. Spink in presenting the "Responsibilities of Membership" discussed first the reasons for restrictions in membership, one of which, he said, was to prevent unwieldiness in the organization. The Rotarian must carry the ideals of Rotary to the men in his own line of business activity and to people generally. The success of any Rotary organization depends upon how seriously the members take the slogan of service and the energy they use in the endeavor to render that service. He said that Rotary is a school, one department being devoted to the science of acquaintance-making and the other department to the science of service giving.

Dr. Rammelkamp referred briefly to the growth of the local organization and what he felt that it had contributed to community spirit. Then he spoke of the responsibilities that come to men as citizens who desire to bear their full share of the burden of civic life.

Hayden, formerly residents here. She is a granddaughter of Mrs. J. B. Wharton. The young musician has written ten compositions of one of them being a two-piano number, and she has received recognition for her work in composition from a number of artists, among them Madame Julie Rive King.

The Peoria Journal made the following mention of the recital in which Miss Hayden recently appeared:

"The playing of Miss Alta Lucille Hayden, the winner of the 1920 scholarship offered by the Amateur club, was a feature of the members' recital given at the Christian church Friday. Miss Hayden, who is but fifteen years old, played a group of four numbers, all of which were composed by her.
